This document contains a number of security features, the absence of which could indicate a fraudulent copy. These security features include on the face of the document: Micro-text lines, which appear in the inverted "V" shape in Crest and when magnified read as "MONASHUNIVERSITY" repeating. Within the body of the document, there is an invisible fluorescent print of the University's crest and name, which will appear under UV, (Blacklight), excitation. On the reverse, the crest appearing centrally, in the upper middle of the document, is heat reactive and will disappear when moderate heat is applied - re-appearing when the area cools.
